About Headache Care

Headache Care: *education, research and management for the practising clinician* is a new, international, peer-reviewed journal dedicated to publishing research on the management of all types of headache in the primary care setting.

The journal publishes a wide variety of material including:

- Original Articles**
- Brief Reports**
- Research Letters**
- Reviews**
- Commentaries**
- Editorials**
- Letters to the Editor**
- Conference Reports & Book Reviews**

The journal is published in association with **MIPCA**, *Migraine in Primary Care Advisors*

**FOR A FREE SAMPLE ISSUE
CONTACT THE PUBLISHERS –**
journals@librapharm.com

LibraPharm
Independent publishers in
medicine and healthcare

- *Current Medical Research & Opinion*
- *Primary Care Psychiatry*
- *Paediatric and Perinatal Drug Therapy*
- *TransPharma*

Accepted material is first published online, in its final form, on the **Headache Care FastTrack** site within 3–6 weeks. Visit www.librapharm.com/headache_fasttrackList.php for examples.

Full text papers are also available on **Headache Care Online** via Ingenta Select, a database hosting many full text online publications from leading scholarly, academic and business publishers.

The online version is fully searchable and other major benefits include document-to-document linking via the references – many of the references in articles are directly hyperlinked through to the Medline abstract – as well as links to and from major abstracting services.

There is also a Table of Contents (TOC) alerting service, allowing registered users to be informed of new material.

Print publication is quarterly, with 4 issues per volume plus supplements.
